

HOW DO I CHOOSE WHICH AMI-TTS FIRMWARE TO DOWNLOAD?

Please take a note before re-flashing the firmware, makes sure you have downloaded the right firmware file otherwise the Android tablet might experience an issue if you use wrong firmware version.

Locate your serial number on the back of the unit and if the serial number start with

- AMITTS201305... Then download FIRMWARE #1
- AMITTS201306... Then download FIRMWARE #2
- AMITTS201307... Then download FIRMWARE #2
- AMITTS201308... Then download FIRMWARE #2
- AMITTS201309... Then download FIRMWARE #3

NOTES

- *This firmware is provided for troubleshooting purpose in case the original firmware was corrupted and need to be repair. Do not need to re-flash the firmware if the current firmware is working okay.*
